

• THE STEEL WE CARRY •

XD15NW Bar

- Stainless bearing steel, high nitrogen(CREN)
- Superior to 440C
- ESR: AMS 5925
- Alternative to AMS 5898

XD16N Bar

- Stainless bearing steel
- More cost effective version of XD15NW
- Air-Melt: AMS 5926

CX13VDW Bar

- Carburizing stainless
- Cost effective alternative to AMS 5930
- Alternative to Jethete M152
- ESR: AMS 5719

440C

- Stainless high carbon-chromium bearing steel
- Air-Melt: AMS 5880 & AMS 5630
- VAR: AMS 5618

GKHW Bar

- High surface hardness & excellent fatigue
- Suitable for high temp applications
- Can be nitrided
- ESR

GKPW/YW Bar

- Capable of very deep nitriding (.040"/1mm)
- High ductility and fracture toughness
- 40% less nitriding time for standard depths
- Remelted: AMS 6497
- VIM-VAR: AMS 6498

NC310YW Bar

- High Strength & High Fatigue
- Can be carburized
- VIM-VAR: AMS 6499

M50 Bar

- High temperature steel for aircraft bearings
- VAR: AMS 6490
- VIM-VAR: AMS 6491

8620 Tube & Bar

- Carburizing bearing steel
- Air-Melt
- ASTM A534 & AMS 6274

52100 Tube

- Standard bearing steel
- Air-Melt: ASTM A295 & AMS 6440 (Bar & Tubing)
- VAR: AMS 6444 (Bar)

THE SULLIVAN DIFFERENCE

- We carry a unique line of high-performance specialty steel for all industries
- Expert metallurgical support before and after the sale
- Orders of any size shipped fast
- Excellent customer service and responsiveness
- Sawing for small or large quantities
- Other added-value services available

IN-STOCK - READY TO SHIP
