

• **THE STEEL WE CARRY** •

52100 Bar, Tube, & Wire**

- Standard bearing steel
- Air-Melt: ASTM A295 & AMS 6440
- VAR: AMS 6444 (Bar)

8620 Bar & Tube*

- Carburizing bearing steel
- Air-Melt
- ASTM A534 & AMS 6274

M50 Bar*

- High temperature steel
- VAR: AMS 6490
- VIM-VAR: AMS 6491

9310 Bar*

- Carburizing Steel
- High fatigue, hardenability, and strength
- VAR: AMS 6265

440C Bar & Wire*

- Stainless high carbon-chromium steel
- Air-Melt: AMS 5880 & AMS 5630
- VAR: AMS 5618

XD15NW Bar

- Stainless bearing steel, high nitrogen (CREN)
- Superior to 440C
- ESR: AMS 5925 | Alt. to AMS 5898

XD16N Bar

- Stainless bearing steel
- More cost effective version of XD15NW
- Air-Melt: AMS 5926

CX13VDW Bar

- Carburizing stainless
- Cost effective alternative to AMS 5930
- ESR: AMS 5719

N135M Bar*

- High case hardness, heat resistance, & core strength
- Supplied in prehardened condition – 28-32 HRC
- VAR: AMS 6471

GKHW Bar

- High surface hardness & excellent fatigue
- Suitable for high temp applications
- ESR: Can be nitrided

GKPYW Bar

- Deep and/or fast nitriding (.040"/1mm)
- High ductility and fracture toughness
- VIM-VAR: AMS 6498

NC310YW Bar

- High Strength & High Fatigue
- Can be carburized
- VIM-VAR: AMS 6499

* Domestically produced; all material DFARS ** N&T Bar in select sizes

THE SULLIVAN DIFFERENCE

- We carry a unique line of high-performance specialty steel for all industries
- Excellent customer service, including metallurgical support
 - Orders of any size shipped fast
 - Sawing for small or large quantities
